flair

Award Winning Product Design

Flair's unrelenting passion for innovation has achieved international recognition in the form of numerous design award accolades.

RED DOT DESIGN AWARD (GERMANY)
The Red Dot label is recognised as a warranty of design excellence. It is awarded to entrants who demonstrate an innovative spirit with product of the highest quality, form and function gaining this design awards honour.

GOOD DESIGN AWARD® (CHICAGO)
Founded in 1950 by architects Eero Saarinen, Charles and Ray Eames and Edgar Kaufmann, GOOD DESIGN® is the world's oldest Design Awards program. It is organised annually by The Chicago Athenaeum Museum of Architecture and Design. It recognises the work of manufacturers who have undertaken the design challenge to produce product of the most outstanding design globally.

iF DESIGN AWARD (GERMANY)
The iF DESIGN AWARD recognises exceptionally well-designed products. Since 1953, an esteemed jury of International design experts have awarded this symbol to product that is user focused, ergonomic and efficient in its design.

CREATING PERFECT HARMONY™

SURROUND YOURSELF WITH BEAUTY.

Welcome

This guide is more than a collection. It's an invitation to **reimagine** your space, **discover** new perspectives, and **shape** a setting that feels uniquely your own.

flair

Our Story

Founded in County Cavan in 1952, Flair has evolved into an Irish designer of premium shower spaces across Europe. Its values endure - care, consistency, and a belief in design that lasts.

Built on 70 years of experience.

Our People

All products are developed by our in-house designers and engineers working side by side. Concepts are tested, details refined, and performance considered throughout - resulting in solutions that feel cohesive, reliable, and effortless to use.

Experience informs every decision.

Our Process

Each design undergoes rigorous testing and refinement. Prototypes are evaluated, mechanisms stress-tested, and materials carefully selected for durability. Built to European standards with toughened safety glass, every enclosure is made to deliver reliable, consistent performance day after day.

Built for enduring performance.

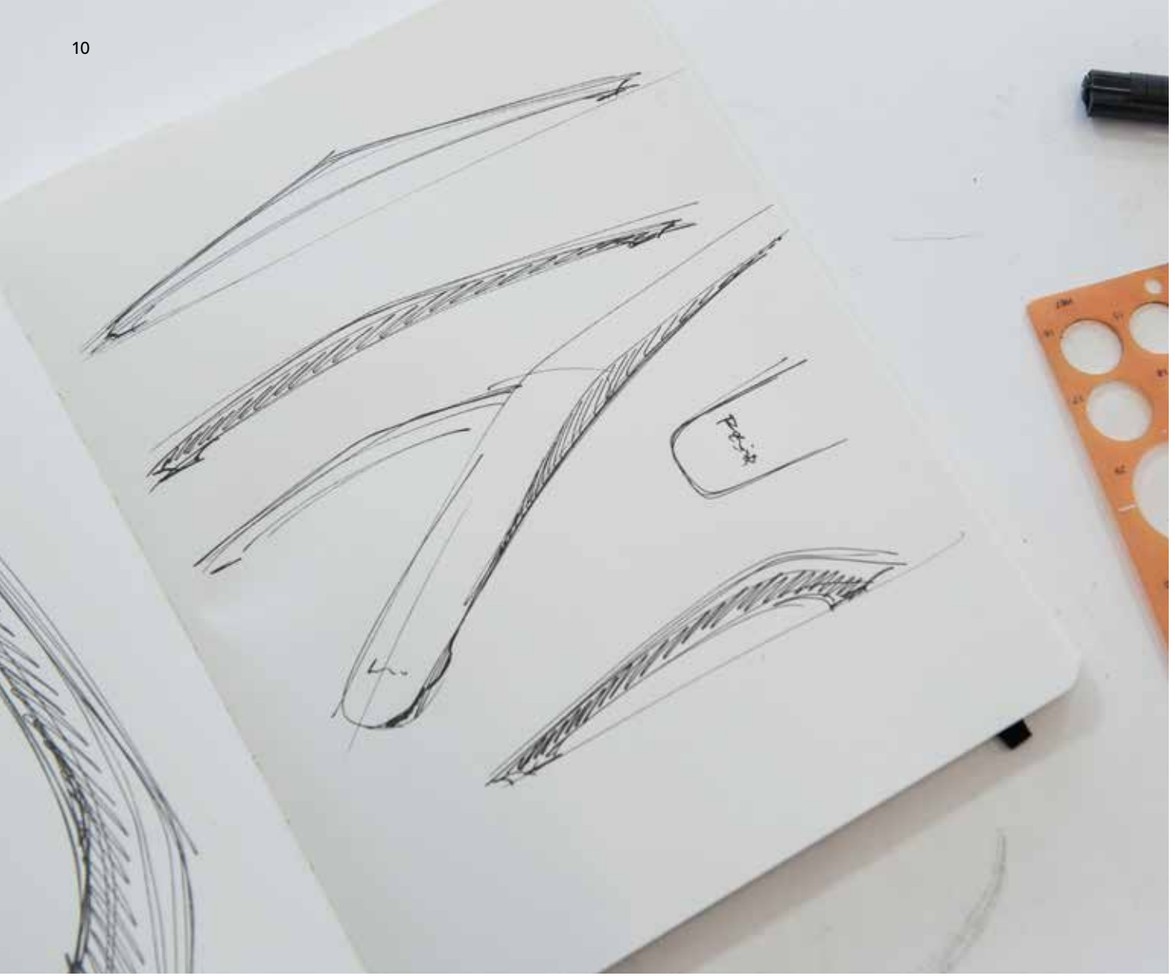

Step into stillness

Let considered design and flowing form awaken your senses and elevate the rhythm of your daily routine.

Crafted with purpose

Built to last, shaped to inspire. From Dublin studios to homes across Europe, every detail reflects precision, care, and a commitment to quality.

Design that begins with understanding

Each curve, material and finish is chosen to feel as good as it looks - today and for years to come.

Timeless vision

Decades of expertise meet forward thinking design. A legacy of craftsmanship continues to shape spaces that feel timeless, effortless, and refined.

Every Flair shower is crafted
to transform a daily ritual into
a moment of calm, connection,
and quiet enjoyment.

SURROUND YOURSELF WITH BEAUTY.

ORO sliding door with two inline panels and frameless side panels on Gemstone Flint Grey tray – The Secret Waterfall, Largy, Co. Donegal, Ireland.

flair EXPLORE AYO

GOOD DESIGN

SURROUND YOURSELF WITH BEAUTY.

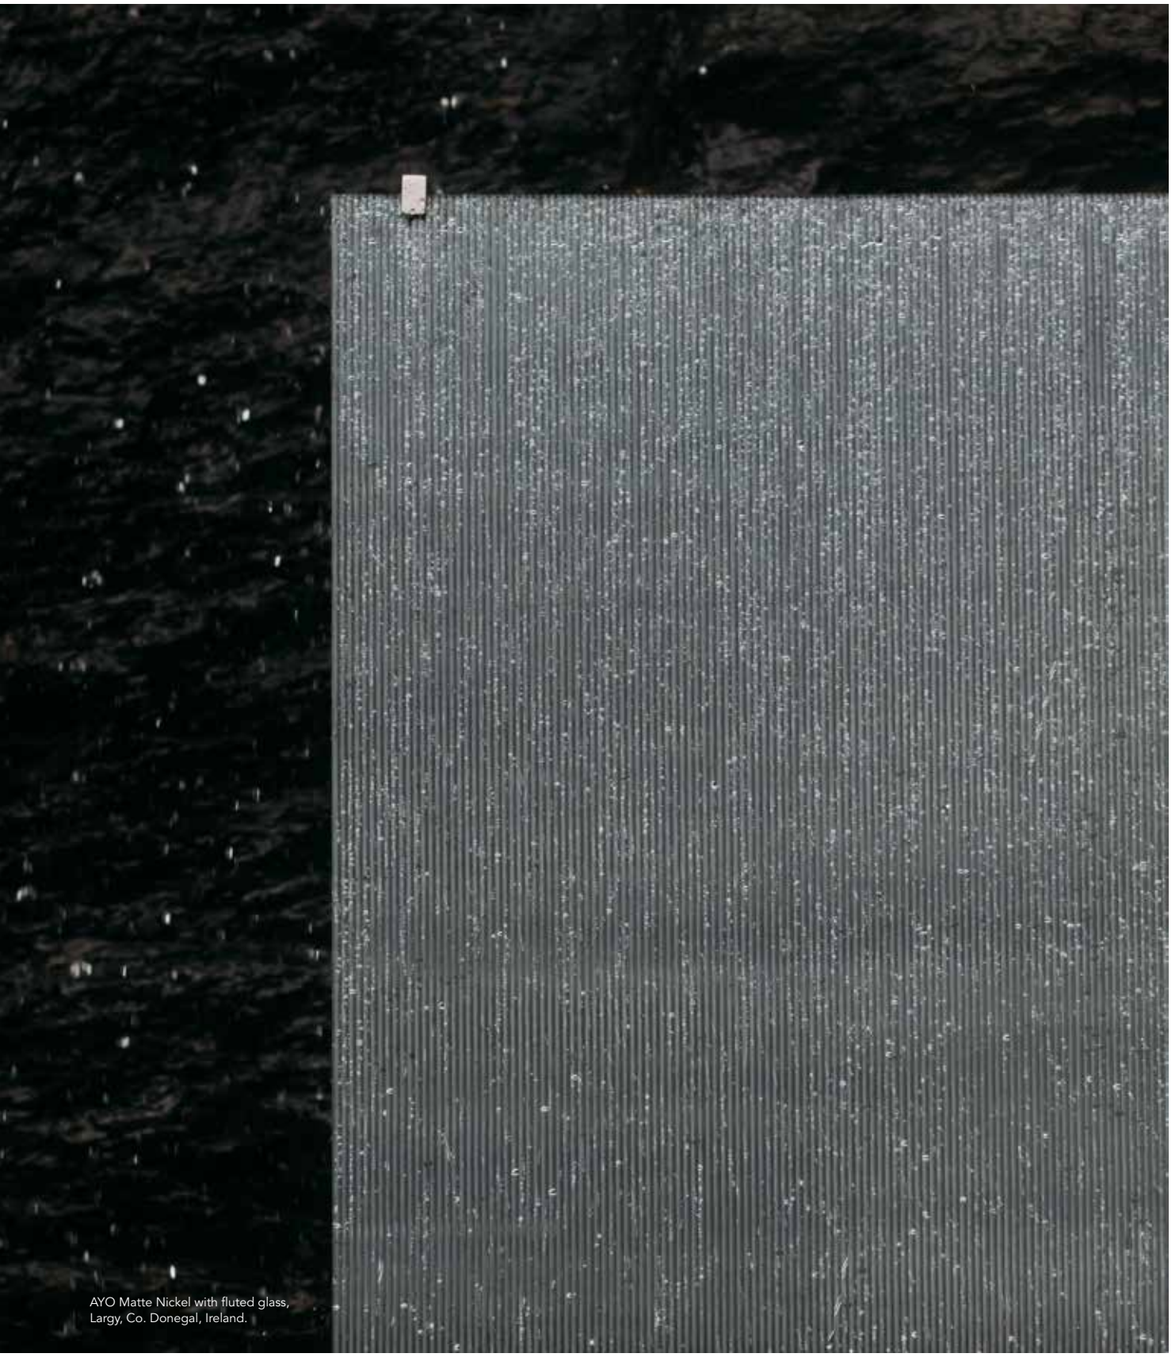

AYO 8mm wetroom panel finished in Brushed Brass.

AYO Matte Nickel with fluted glass,
Largy, Co. Donegal, Ireland.

8mm Linear wetroom panel with clear glass,
Largy, Co. Donegal, Ireland.

10MM WETROOM WITH CLEAR GLASS
finished in Brushed Bronze

8mm & 10mm Modular Wetrooms

Created for complete design freedom, the AYO collection redefines the modern wetroom with exceptional versatility and refined engineering.

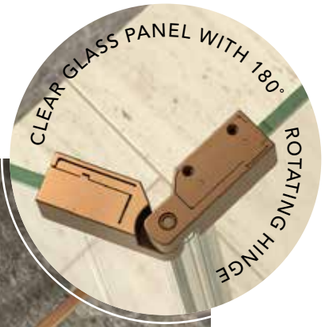

Combining premium materials with elegant detailing, AYO adapts effortlessly to any space, creating a showering environment that is uniquely yours.

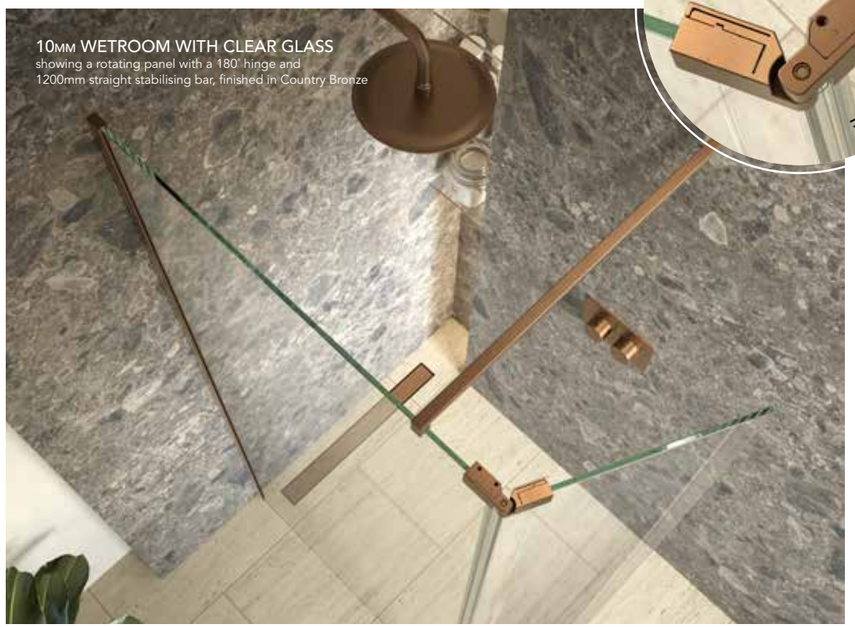

8MM WETROOM WITH CLEAR GLASS
finished in Matte Black

Intelligent Versatility

From fixed and rotating panels to recessed channels, ultra-clear seals and a choice of stabilising bars, every component is engineered to provide exceptional flexibility without compromising visual simplicity.

10MM WETROOM WITH CLEAR GLASS
showing a rotating panel with a 180° hinge and 1200mm straight stabilising bar, finished in Country Bronze

8MM CORNER WETROOM WITH FLUTED GLASS
finished in Matte Black

Architectural Elegance

Clean lines, expansive 2000mm high glass panels and minimal profiles create an open, contemporary aesthetic that enhances both spacious and compact bathrooms alike.

8MM WETROOM WITH FLUTED GLASS
showing a rotating panel with a 180° hinge and 1200mm straight stabilising bar, finished in Brushed Brass

Personalised Freedom

Designed around individual style, AYO offers a modular approach that allows every shower space to be tailored with a choice of glass styles, premium finishes and configuration options.

10MM CORNER WETROOM WITH CLEAR GLASS
finished in Matte Black

Premium Clarity

Available in both 8mm and 10mm safety glass, each panel is protected with a hydrophobic coating that helps resist limescale and everyday grime, maintaining a cleaner, brighter finish for longer.

Refined Expression

Choose from clear, fluted or opaque glass, complemented by seven carefully curated finishes, allowing every enclosure to harmonise effortlessly with the wider bathroom design.

8MM WETROOM WITH FLUTED GLASS
showing a rotating panel with a 180˚ hinge and 1200mm straight stabilising bar, finished in Matte Black

8MM WETROOM WITH OPAQUE GLASS
with a 1200mm straight stabilising bar, finished in Silver

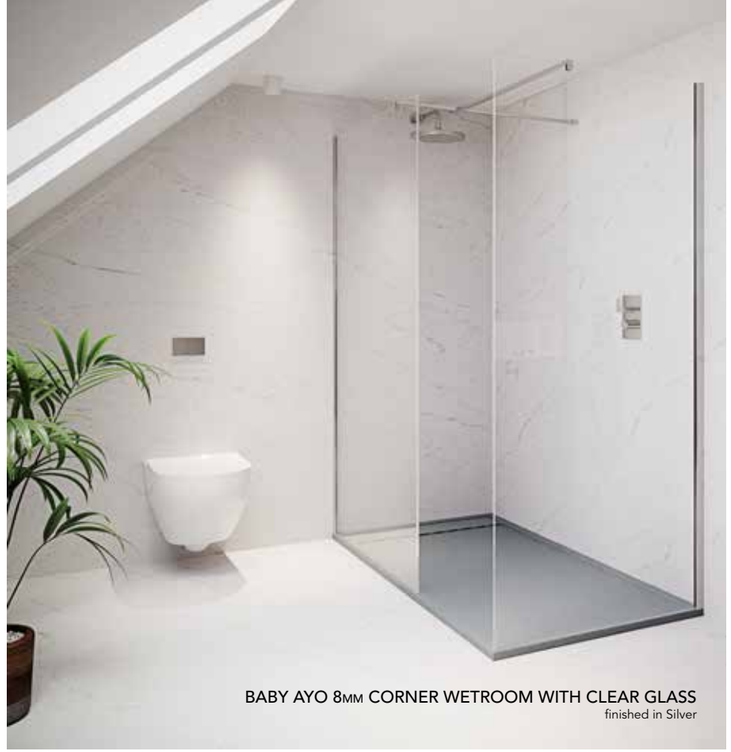

Seamless Integration

Whether selecting one of the most popular wetroom layouts or creating a fully bespoke modular configuration, AYO is designed to deliver a sophisticated solution that feels purposeful, balanced and beautifully considered.

AYO COLOUR - 8mm or 10mm

AYO FLUTED - 8mm

AYO FRAMED - 8mm (Clear & Fluted Glass)

1. AYO single wetroom panel finished in Matte Black, 2. T-Piece finished in Silver, 3. Rotating panel from above finished in Matte Black with fluted glass, 4. Rotating panel finished in Brushed Brass, 5. AYO wetroom panel finished in Silver

CHOOSE AYO, YOUR WAY.

Find Your Perfect AYO Wetroom

AYO **WETROOMS**

From Page 146 (8mm) or page 158 (10mm).

Discover our three most popular wetroom configurations - designed to make choosing and ordering quick and easy.

AYO **MODULAR**

From Page 162.

A step-by-step process that will help bring your dream shower space to life and is tailored to create a unique shower enclosure design that suits your style.

Choose from a variety of materials, colours and finishes to create the perfect ambiance.

AYO

SINGLE WETROOM PANEL

A classic and simple option.
Ideal for minimalist, modern wetrooms.

8 OR 10 mm TOUGHENED SAFETY GLASS

FOR A **CORNER** SPACE

FOR AN **ALCOVE** SPACE

AYO

WETROOM PANEL WITH ROTATING DEFLECTOR PANEL

Looking for extra splash protection?
A stylish solution that maintains an open, flexible showering space.

Start by picking your front panel size on page 146 (for 8mm glass) or page 158 (for 10mm glass), then select your rotating panel.

Note - All rotating panels can be retro fitted.

8 OR 10 mm TOUGHENED SAFETY GLASS

FOR A **CORNER** SPACE

AYO

CORNER WETROOM

Creating a corner shower?
Designed to maximise space and minimise splash.

Pick two panels in your required sizes. For an optional rotating panel, see page 148 (for 8mm glass) or page 160 (for 10mm glass).

Pick three panels in your required size for a straight space.

8 OR 10 mm TOUGHENED SAFETY GLASS

FOR A **CORNER** SPACE

FOR A **STRAIGHT** SPACE

AYO® COLLECTION

WETROOM
8MM CLEAR GLASS

Includes an 8mm clear glass panel, a 15mm wall profile and a suitable stabilising bar solution.

CORNER WETROOM
8MM CLEAR GLASS

Start by choosing your front wetroom panel from page 142,
then select your side panel size from the options below.

You must also order a T-Piece to complete the corner installation.

Create a spacious, stylish corner wetroom with a sleek
two-panel layout supported by stainless steel stabilising bars.

Add a matching T-piece for enhanced stability and a seamless, modern finish.

ROTATING DEFLECTOR PANEL
10MM CLEAR GLASS

Rotating panels help reduce
water spray while keeping your space open.

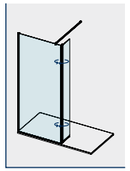

Rise & Fall Hinge Rotating Deflector Panel:
Closes 180˚ internally
against the fixed panel.

Hinge Rotating Deflector Panel:
Rotates 90˚ internally.
Rotates 90˚ externally.

Note: Please order your front wetroom panel in the required size from page 154.

CORNER WETROOM
10MM CLEAR GLASS

Start by choosing your front wetroom panel from page 154,
then select your side panel size from the options below.

You must also order a T-Piece to complete the corner installation.

Create a spacious, stylish corner wetroom with a sleek
two-panel layout supported by stainless steel stabilising bars.

Add a matching T-piece for enhanced stability and a seamless, modern finish.

THE PERFECT SHOWER MADE FOR YOU.

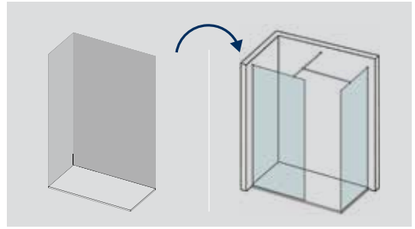

Choose and Measure Your Space

First things first, analyse the area you have allowed for your shower, and get your measurements correct.

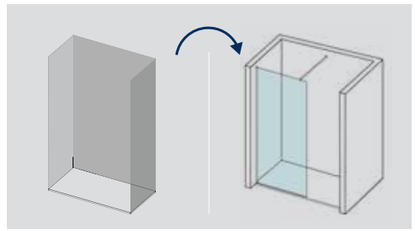

Then simply follow our 5 step process of selecting the components you need to create your personal shower sanctuary.

Please note:
It is suggested to leave a minimum of 500mm wide access when measuring for your wetroom panel.

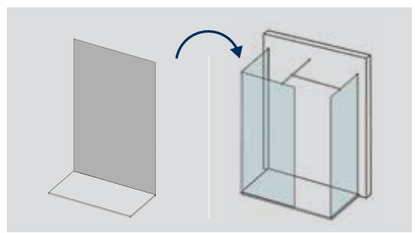

FOR A **CORNER** SPACE

FOR AN **ALCOVE** SPACE

FOR A **STRAIGHT OPEN** SPACE

Fluted & opaque available in 8mm only

Follow Our Simple 5 Step Process

1

CHOOSE YOUR **LAYOUT**

From page 164; Have a look at our configuration guide on the following pages to help you design your ideal shower space.

2

CHOOSE YOUR **GLASS**

From page 165; Choose from an 8mm or 10mm thickness, and also if you'd prefer clear, fluted* or opaque* glass.

*8mm only

3

CHOOSE YOUR **WALL PROFILE & STABILISING SOLUTION**

From page 166; Pick from a range of 7 finishes and a selection of stabilising solutions to suit your space and preference.

4

CHOOSE YOUR **ACCESSORIES**

From page 170; If needed, finish your shower space with one of our accessories - available in a range of finishes.

5

CHOOSE YOUR **ROTATING PANEL**

From page 172; Add a rotating panel for added splash protection and a more versatile showering experience.

STEP 1
CHOOSE YOUR **LAYOUT**

Endless Showering Possibilities

With an almost infinite choice of wetroom layouts, AYO provides maximum flexibility as you personalise your dream shower space.

For ease of ordering, we have created the following layouts for the most popular wetroom configurations.

FOR A **CORNER** SPACE

LAYOUT C1

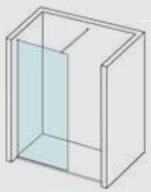

- x1 Wall Profile
- x1 Glass Panel
- x1 Straight Stabilising Bar

LAYOUT C2

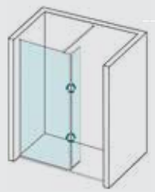

- x1 Wall Profile
- x1 Glass Panel
- x1 Straight Stabilising Bar
- x1 Rotating Panel

FOR AN **ALCOVE** SPACE

LAYOUT A1

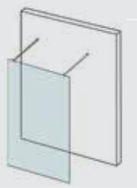

- x1 Wall Profile
- x1 Glass Panel
- x1 Straight Stabilising Bar

LAYOUT A2

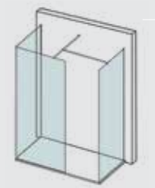

- x1 Wall Profile
- x1 Glass Panel
- x1 Straight Stabilising Bar
- x1 Hinged Rotating Panel

FOR A **STRAIGHT OPEN** SPACE

LAYOUT S1

- x1 Glass Panel
- x2 Straight Stabilising Bars

LAYOUT S2

- x2 Wall Profiles
- x3 Glass Panels
- x1 Ultra Clear Corner Seal
- x2 Straight Stabilising Bars
- x1 T-Piece

STEP 2
CHOOSE YOUR **GLASS**

8mm Glass Wetroom Panel / 2000mm High

Suitable for use on wetroom floor or tray.

Slate Textured Shower Trays

Defined by exceptional quality and timeless style, the Gemstone collection brings together contemporary design, premium materials and lasting performance.

Beautifully crafted with a refined slate texture, each tray offers a sophisticated foundation for bathrooms of every style, creating a shower space that is as elegant as it is practical.

Natural Character

Inspired by the beauty of natural stone, the finely textured slate surface delivers an authentic appearance with a tactile finish that brings warmth, depth and understated luxury to the bathroom.

Designed to Complement

With clean lines and a minimalist aesthetic, the Gemstone collection integrates effortlessly into classic, contemporary and modern interiors, providing a versatile foundation for a wide range of shower spaces.

ONYX BLACK
Gemstone Slate Tray with square waste – Black grille purchased separately

GEMSTONE INFORMATION

Guarantee

Your Gemstone tray must be inspected 100% before installation. Fitting of tray is acceptance of quality. Please read fitting instructions fully before installation.

Before tiling and placing the screen or any other fixed material on the shower tray, please make sure that the perimeters of your tray are 100% level in all directions.

The guarantee only covers the replacement or repair of the product and excludes any other compensation, assembly or travel costs.

Gemstone Trays are guaranteed for 2 years, in accordance with current European regulations.

The following are excluded from the guarantee:
- Damage caused by misuse.
- Damage caused by the use of unsuitable cleaning materials (do not use products containing acids, alcohol, chlorine or solvents, do not spill drain cleaners onto the shower tray, do not use metallic or scouring pads).
- Damage caused by improper installation.
- Damage caused by the improper handling of the product.

Our products must be installed by qualified personnel to be eligible for the product guarantee. An installation guide will be delivered with the tray for its proper placement.

Before installing the tray you should make sure that:
- The tray drains well and is 100% level.
- It has no anomalies.
- The tray has been stored in a horizontal position on a flat surface until installation.

Cleaning

- Routine: rinse and leave to dry.
- Thorough: rub with a soft cloth with neutral liquid detergent; for limescale prevention use an anti-lime product.

Please note, Gemstone Trays are manufactured from a natural stone resin composition. You must allow for a tray thickness tolerance of 2 - 3mm.

Chemical Tests

Chemical resistance tested in accordance with UNE-EN 12527 - No deterioration.

Chemical Testing Composition

Acetyl acid (10%), sodium hydroxide (10%), ethanol (70%), bleach, methylene blue (1%).

CLEANING SOLVENT (PRODUCT)	EXPOSURE TIME (DAYS)	RESULT OF VISUAL INSPECTION
Don Limpio Neutral PH	4	No Visible Effect
Perfumed Home Bleach	4	Slight Bleaching
Ace	4	Slight Bleaching
Perfumed Ammonia	4	No Visible Effect

White Wine Vinegar	4	No Visible Effect
Povidone Iodine	4	No Visible Effect
Hydrochloric Acid	4	No Visible Effect
Hydrogen Peroxide	4	No Visible Effect
Cleaning Solvent	4	No Visible Effect
Methylated Spirits	4	No Visible Effect
Acetone	4	No Visible Effect
Nail Polish Remover	4	No Visible Effect

Packaging and Storage

The products are delivered packed in individual boxes with expanded polystyrene reinforcements, including the drainage grate. Gemstone trays must be stored in a horizontal position on a flat surface until installation. This prevents the tray from losing shape.

FAQ

Can it be cut?
Yes, with a diamond cutting wheel.

Please note, Maximum trim of 200mm on rectangular waste trays. Maximum trim of 100mm on linear waste trays, with the cut applied to the opposite end to the linear drain.

Can it be repaired?
Although they are highly resistant to any impact, we have a repair kit available to the customer. Please contact us on 0800 180 8050 to order your Gemstone Tray repair kit. Lead time applies.

How should the product be cleaned?
We recommend cleaning with water and neutral soap, applied with a sponge, never with scouring products or tools.

What material should I use to install the products?
Your Gemstone tray must be installed on a fully level glue-cement or mortar base. For sealing the product, it is recommended to use MS flexible polyurethane sealant and / or a neutral silicone.

SLIMLINE TRAY COLLECTION

- 40mm Tray Depth
- Slimline Profile Design
- 90mm High Flow Waste
- Available with Anti-slip Surface
- CE Approved

Rectangle Tray

Square Tray

Offset Quadrant Tray

Quadrant Tray

SLIMLINE SHOWER TRAYS

ROUND WASTE / HEIGHT – 40MM (Waste Included)

Note. There is a tolerance of up to 10mm in tray sizes above the nominal dimensions.
This is to allow for potential shrinkage during the manufacturing process.

QUALITY GUARANTEED

Quality Guaranteed

Please consult the relevant consumer product brochure to view the Guarantee terms offered on each Flair product range.

At Flair we have an unwavering commitment to product quality.

All Flair products are CE approved and manufactured in accordance with ISO 9001:2015 Quality Assurance systems and ISO 14001:2015 Environmental Management systems.

All glass is toughened safety glass and produced to EN12150. Flair products are performance tested to EN14428, ensuring the highest industry criteria is met.

Note: Proof of purchase is necessary to validate your guarantee so retain purchase receipt for your Flair product.

If a Flair shower enclosure is defective in materials or manufacture, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

Aftersales & Spare Parts Service

Flair is 100% committed to customer service excellence.

We carry a full range of spare parts for each product range and have dedicated aftersales specialists to deal with any issues you may have.

If you have any queries, please contact Flair on 00353 42 966 8000.

Return Policy

Flair will not accept return of any product that has been opened.

We do not accept return of any product if the packaging has been damaged.

If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

Shower Door Installation Advice

BEFORE YOU INSTALL YOUR SHOWER ENCLOSURE PLEASE READ ALL INSTRUCTIONS. FAILURE TO DO SO MAY LEAD TO INVALIDATION OF YOUR GUARANTEE.

Flair Showers Ltd will not accept responsibility for any loss or damage, however caused, if the shower enclosure has not been installed as per the instructions.

- The shower tray MUST be fitted 100% level. The shower tray must be sealed correctly to prevent any water leakage.
- Glass edges are vulnerable and should be treated with care at all times. Contact with hard surfaces may result in glass breakage if due care is not taken.
- Check walls for electrical cabling or water pipes before drilling.
- Your shower enclosure, bath screen or wetroom must be inspected before installation. Check for all visual defects on the product before installation. Once the enclosure has been installed no claims of damage or defect will be accepted. Fitting of shower enclosure is acceptance of quality.
- The wall plugs supplied with the shower door are for use in solid walls. Timber frame, stud partition walls will require alternative fixings.
- Ensure vertical wall profiles are level and are an equal distance from the tray.
- Shower Doors, Wetroom Screens, Bath Screens and Side Panels are adjustable between the dimensions stated. All dimensions are approximate.
- Ensure adjustment at wall profiles are equal at both sides and that all screws are fully tightened.
- Ensure hinges are level and securely fitted to the glass.
- Ensure magnets are the right orientation and are attracting rather than repelling.
- The shower enclosure should be sealed on the outside only using silicone sealant.
- Care must be taken during assembly. Flair will not accept responsibility where incorrect assembly results in undue stress being put on any components in this product.
- If there are any manufacturer defects, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.
- Note: If a problem has been caused by incorrect installation, a call-out charge will apply for the Flair technical engineer's time. Subsequent charges will apply "to fix" a problem caused by incorrect installation.

Bathscreen Installation

The bath screen must be installed on a 100% level surface with the bath edge free from obstructions.

Bath screens should not be used on a bath with roll top rim, stepped edge rim or where the bath handle void meets the bath screen seal. This will impact on the performance of the bathscreen and the guarantee will be void. The Bathscreen should be fitted to the inside edge of the bath only.

A bath screen acts as a water deflector and is not 100% waterproof. If used appropriately under normal showering conditions and installed to the inside edge of the bath, water will be deflected into the showering area. Bath Screens are not suitable for power showers.

Shower Tray Installation

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

Conditions of Sale

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

As part of our continuing policy of product improvement, we reserve the right to amend specifications, colours and prices without prior notice. Images are for illustrative purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads and shower wastes in the brochure is for illustrative purposes only.

***Errors and Omissions Exempt.**

Cleaning Guidelines

- Glass: Use a soft cloth and mild detergent, rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water. Rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads. Only use detergents, cleaners and limescale removers with a pH of 5-8.
- The constant use of detergents will degrade the finish of the product over time if not thoroughly rinsed off.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with the use of a mild limescale remover.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

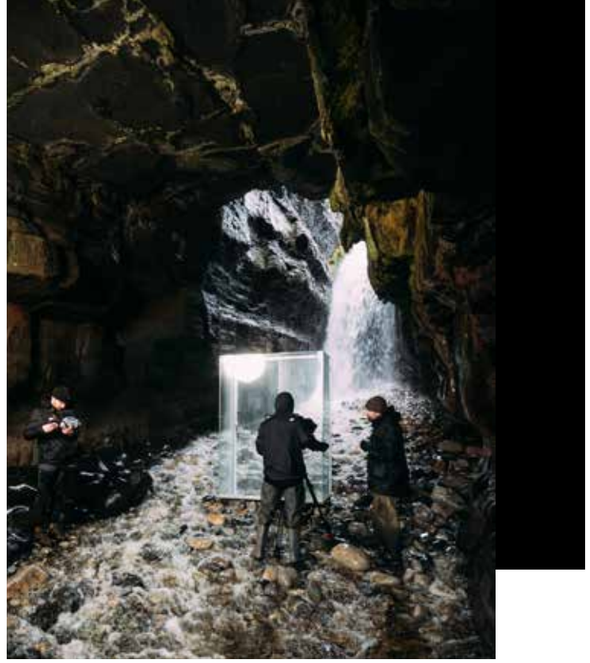

Largy, Co. Donegal, Ireland.
