Roper Rhodes Fitted Furniture

FOR A BATHROOM DESIGNED AROUND YOU

As a company, we're obsessed with creating the perfect bathroom space however big or small. Create yours with our wide range of customisation options and make room for what matters with our clever storage solutions. From design to finish-discover bathroom furniture that fits you.

Designed by us, tailored by you

CHOICE

Entirely customisable, our cabinetry is available in a full suite of colours and configurations, with a wide range of hardware to suit.

Bathrooms that are built to last

QUALITY

Engineered and tested extensively, our furniture carries an industry-leading 10-year guarantee.

Designed in the home of bathing

PROVENANCE

Founded and still based in the historic spa city of Bath, our products are shaped by over 45 years of industry experience.

Furniture, Taps,
Mirrors & Cabinets

Ceramics

For a good feeling that lasts ...

FITTED FURNITURE PRODUCT STANDARDS

We appreciate that when you have made the commitment to invest in such an important room in the house you expect quality and durability. You can rest assured all our fitted furniture products are subject to thorough testing before they ever reach real bathrooms. Please read on to see how every element is assessed.

FITTED
FURNITURE
PAGES 20-85

Our fitted furniture is subject to operational testing including:

HINGES & RUNNERS

Whether you stow things away to only open up your storage once a week, or you are opening multiple times a day to find your favourite moisturiser you can be sure they will be consistent every time. Components are open/close cycle tested for endurance with hinges being **tested up to 80,000 cycles** and **drawer runners subjected to 50,000 cycles**.

WALL HANGING BRACKETS

If you have opted for the clean look of a wall hung unit, you can be sure it will withstand the demands of everyday use as our hanging brackets are **tested up to 200-260kgs** static load by a hydraulic press.

PAINT ADHESION & HARDNESS

Our furniture is painted to the highest of standards to provide perfect coverage and withstand the rigour of bathroom use, paint adhesion and hardness is tested until failure to ISO standard.

CORROSION TEST

Even our knobs and handles are not left to chance. To replicate life in a bathroom these are put through an accelerated corrosion test that produces a corrosive attack to a plated surface to ensure suitability of the coating.

GUARANTEE
Furniture, Taps,
Mirrors & Cabinets

GUARANTEE
Ceramics

All Faber WC pans benefit from a whisper quiet flush. Vortex flushing is quieter and uses less water compared to standard rimless pans.

SANITARYWARE

Every piece of our sanitaryware is tested to last for years to come.

FLUSH VOLUME

The measured discharge on **no occasion** should **exceed 6L**. Reduced flush shall not exceed 2/3 of the full flush volume.

SEAT DROP TEST

Our seats are tested by **dropping 75kg** from a **height of 30mm 15,000 times**.

MAXIMUM PERFORMANCE

Tested in accordance with British & European standards meaning our cisterns have passed a **200,000 cycle** endurance test.

BRASSWARE

Our tap valves are manufactured in accordance with the relevant product standards including:

PRESSURE TESTED

Pressure tested to **10bar** in accordance with **BS EN 200: 2008**.

ENDURANCE TESTING

Cycle testing on handles / valves up to **100,000 cycles**.

CORROSION TEST

Chrome Plating / Salt spray testing – to ISO standards as stated in **EN 248:2002** plus coating thickness tests on chrome plating.

TEMPERATURE CONTROL

Temperature stability when the inlet pressure drops (i.e when the cold is turned off) **BS EN 1111 & 1287** to prevent scalding.

WRAS APPROVED

We also hold several WRAS approvals on our tap ranges, and use WRAS approved components.

MIRRORS & CABINETS

We test every switching interface to 100,000 cycles, and subject all bonded components to excessive load tests, so even the most chaotic morning in your household can be withstood with ease.

All products are tested to hold a **minimum of 30kg** of extra weight **for 10 days** to ensure strength, giving you full confidence that all your storage needs will be met.

Roper Rhodes

DESIGNED BY US. TAILORED BY YOU.

Fitted furniture is all about taking the space you have and making it reach its full potential. Unrestricted and completely customisable, fitted furniture gives you the flexibility & storage you need, with the style you love.

Whether you live in a Victorian townhouse, an ultra-modern apartment, or something a little more unusual, our boundless combinations of fitted furniture styling options give you the ability to create a bathroom that feels uniquely and effortlessly 'you'.

What will you be...

Be Elegant

A PLAY OF OLD & NEW

A well-known design reimagined for the modern home; Elan combines a clean, contemporary facade with classic frame detailing. This versatile collection offers abundant storage and invites a wide range of customisation options.

Be Timeless

INSPIRED BY TRADITION

Discover the timeless look and feel of traditional carpentry, with all the advantages of fitted furniture in our Burford range. Keep things classic or add a more contemporary twist with this versatile collection of shaker-style furniture.

Be Modern

CLEAN & CONTEMPORARY

Made for the modern home, Aruba's sleek, slab doors and sophisticated styling sets it apart. Aruba offers effortless style in a wide range of on-trend finishes.

THE CHOICE IS YOURS...

Be inspired ...

HOW TO GET THE FITTED LOOK *with Zoe Jones*

BE INSPIRED

Our in-house stylist Zoe gives you her tips on how to style fitted furniture.

Fitted furniture is all about mixing and matching to create a unified look. First, choose the perfect base like our Elan furniture in Sage Green, and then accessorise to inject your own style. We've chosen timeless elements such as our Faber arch mirror and the smooth curves of our Elka sanitaryware, and paired these with contemporary brushed brass accessories to keep it feeling fresh.

@roperrhodes

'Why not try bringing together contrasting textures with rustic woods, brushed brass accessories, or ceramic tiles in modern designs?'

BE A PART OF IT

Be a part of our community by tagging us in a photo of your finished project with **#roperrhodes**, and you might just feature in our next brochure!

@casaardolino

TAILOR YOUR LOOK

Don't forget the finishing touches. Customise your look with our extensive range of mirrors, cabinets, taps and sanitaryware.

Plan your bathroom ...

CHOOSING YOUR PERFECT BATHROOM

Roper Rhodes fitted furniture is full of choice and bespoke features.

Follow our guide below for a quick overview and understanding of how to create your very own Roper Rhodes fitted furniture bathroom. A more detailed planning guide can be found on pages 16-19.

BE INSPIRED

Before beginning your journey, why not check out Instagram, Pinterest or the pages of this brochure to be inspired by our roomset designs and layouts.

@roperrhodes

PLAN YOUR SPACE

Explore your existing bathroom space. Consider any wasted areas which could be maximised with the addition of storage units. We recommend installing your WC unit in a similar position to the current WC to minimise installation costs. Our free swatch sample service makes it easy to choose the right finish for your home. Simply fill out the form on our website to order your own at roperrhodes.co.uk/swatches/

CHOOSE A STYLE OF UNIT

We have three stunning furniture styles to choose from; from the elegant looking Elan, the timeless looking Burford or the pared-back modern style of Aruba. See pages 20-85 for further details.

ELEGANT

ELAN

TIMELESS

BURFORD

MODERN

ARUBA

ADD
A CHARGING
STATION TO YOUR
FURNITURE RUN.
SEE P130.

ACCESSORIES

Choose from our wide range of handles, worktops and taps to give your bathroom units a bespoke look and feel. See pages 92-97 for all handle & worktop options.

COMPLETE YOUR BATHROOM

Complete the design of your new bathroom by choosing from our collection of stylish basins & WCs as well as coordinating taps and elegant mirrors and cabinets. See pages 88-131 for options.

SPECIALIST ADVICE

Speak to your local Roper Rhodes bathroom specialist for further advice on layouts and design, as well as assistance in ordering and installation. Find your nearest retailer on our website now.
roperrhodes.co.uk/stockists/

HERE FOR YOU

Even after you've completed your Roper Rhodes Bathroom, we'll still be here to assist with anything you need.

Product after care, guarantees and access to our customer service team are all available to you, as well as technical support across our website.

For further assistance in planning your bathroom please visit our website to see our Bathroom Buying Guide
roperrhodes.co.uk/bathroom-buying-guides/

Your choice. Your style. Your colour ...

PLAN YOUR BATHROOM

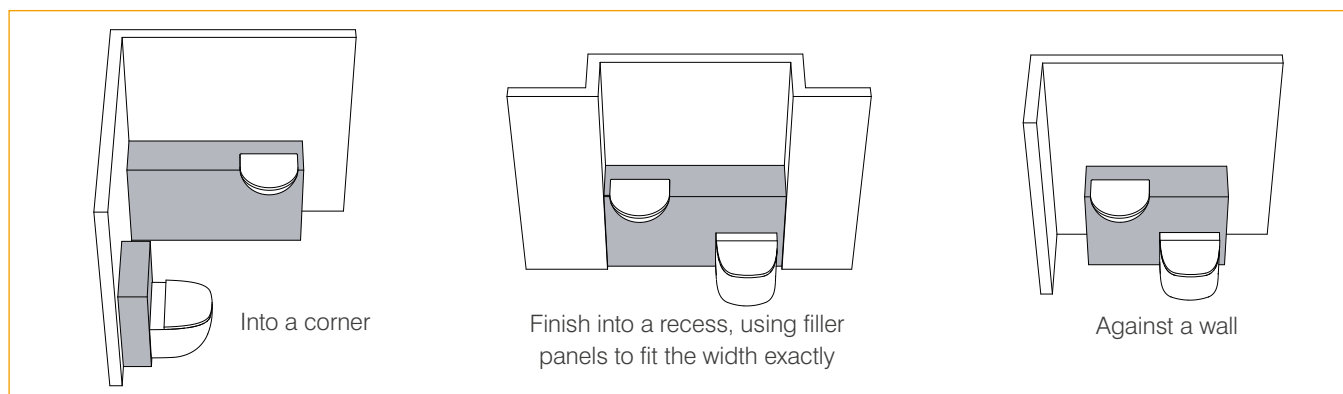

Our fitted furniture gives you the flexibility to personalise your bathroom design by ensuring your bathroom space is uniquely 'you'. Whether you live in a Victorian townhouse or an ultra modern home we can reflect your style, creating the look you want.

CONSIDER YOUR CONFIGURATION

Before starting your bathroom renovation, get a feel for your bathroom layout.

It is advisable to install a WC unit in a similar position to the current WC to minimise installation costs. However, if you do want to change the layout a good bathroom retailer will be able to guide you through the planning process.

Roper Rhodes fitted furniture is designed to be used in many different configurations - some typically popular layouts are highlighted below.

SELECT YOUR UNIT DEPTH

Consider the available space in your bathroom and choose from either standard depth (353mm) or space-saving slim depth (218mm) units.

* Standard depth 353mm * Slim depth 218mm
(* excludes worktop & basin)

PLINTHS & END PANELS

DON'T FORGET

All of our fitted furniture ranges can be wall hung or floor mounted, depending on your desired look. If you opt for floorstanding units, you will need to order colour matched plinths in order to hide the leg supports.

For all fitted furniture you will need to order end panels to complete your look, unless your furniture runs wall to wall. If using end panels in between units to create a framed look, please be aware that one end panel can be cut in half to save costs.

UNIT OVERVIEW

Choose from a range of floor units, wall cupboards and full height 2 door units.

26 FURNITURE UNIT COLOURS

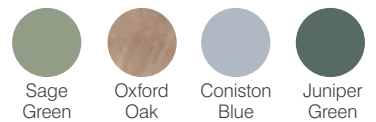

ELAN

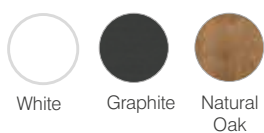

BURFORD

ARUBA

CARCASS COLOURS

9 SIMPLE STEPS TO FITTED FURNITURE

With our versatile fitted furniture and huge choice of additional bathroom products, it is easy to create your unique bathroom. One which will fit not only your personal style, but also the space and more practical needs that you have. Follow these easy 9 steps to help create your perfect bathroom.

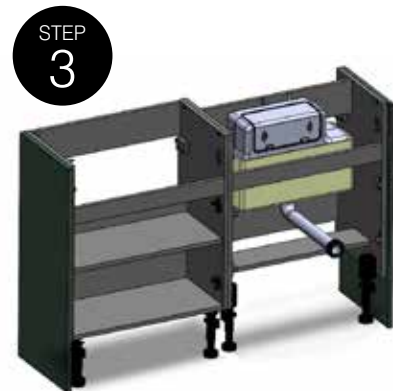

CARCASS

Select your carcass. Carcasses are the building blocks of fitted furniture. Almost every run will start with a semi-countertop (SCT) basin unit, and a back-to-wall unit (BTW) which houses the cistern.

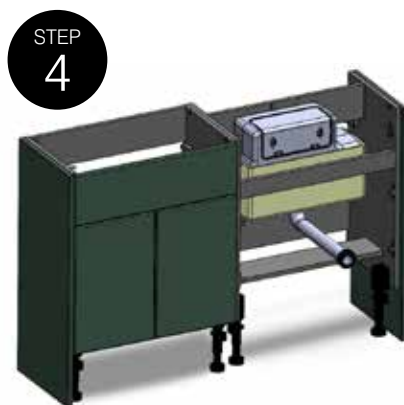

FILLER / CLAD ON PANELS

Filler / Clad-on panels hide the carcasses at each end. They can also be used in between carcasses for a framed look.

CISTERN & FLUSH BUTTON

Remember to select a cistern. The cistern is important as it provides flushing water to the pan. The cistern is housed inside the BTW carcass.

SEMI-COUNTERTOP UNIT (SCT) FASCIA PACKS

These fascia packs comprise x2 doors with soft close hinges and a top fascia on quick release clips.

BACK TO WALL (BTW) FASCIA PACKS

These two panels mask the back-to-wall carcass and cistern. These panels should be cut to allow the pan inlet and outlet pipes to pass through and for chosen flush button to be installed.

PLINTH

These mask the plumbing gap below the carcasses. **They are optional and are not required for a wall mounted run.**

Furniture, Taps,
Mirrors & Cabinets

Ceramics

STEP
7

WORKTOP

A wide range of worktop options add to the custom feel of fitted furniture. Slim and standard depth in a variety of lengths and patterns. The worktop and SCT top fascia should be cut to suit basin selected.

TOP
TIP

STEP 7

We recommend a 5-10mm overhang at each end of the furniture to prevent water dripping onto furniture.

STEP
8

BASIN & PAN

We offer basins which slot perfectly into our fitted furniture ranges.

TOP
TIP

STEP 8

Use silicone sealant to fix the basin in place and seal around the edge of the basin to prevent water in ingress.

STEP
9

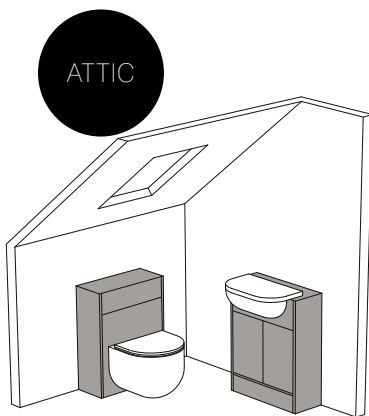

HANDLES

We offer a wide selection of handles to complement all our fitted furniture ranges.

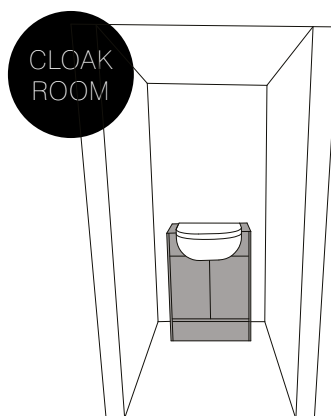

Small

RE-IMAGINING HOW FITTED
FURNITURE CAN BE USED TO
renovate, refresh OR *revamp*,
YOUR SMALL BATHROOM

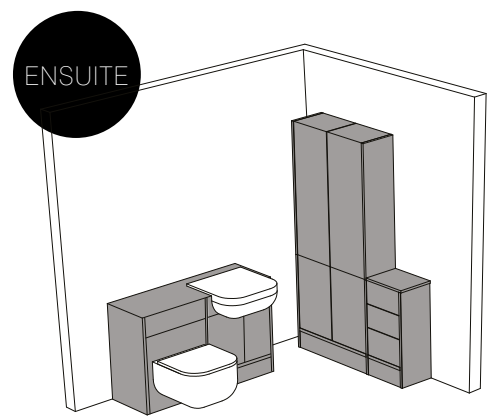

EFFICIENT USE OF SPACE

Great for master suites or guest rooms in loft conversions. Adding luxury, functionality, and value to a home, especially in homes with limited space elsewhere.

IDEAL FOR SMALL SPACES

Fitted furniture is designed to fit in tight places. Compact & space-saving. Making efficient use of otherwise underutilised space.

EXTRA STORAGE

Make use of all your space in an ensuite with varied unit options.

Bathrooms

1

new heights

ABOVE WC CABINETS

Add valuable storage without taking up floorspace with an above-the-toilet cabinet. With three shelves and a slim profile, it's ideal for keeping towels and toiletries tidy.

2

clever de-cluttering

TALL DRAWER STORAGE

Make the most of narrow gaps with tall drawer units – a sleek solution for storing bulky items like cleaning products, spare toilet rolls, and oversized bottles. This pull-out design keeps everything organised and within easy reach.

3

open& closed OPEN SHELVING

Add personality to small spaces by combining closed cupboards with open shelving. Perfect for folded towels or styling accents, it adds depth and texture to your furniture run whilst keeping key items within easy reach.

4

in good order DRAWERS

Keep the chaos behind closed drawers. The secret to a serene and functional space. Tailored compartments help separate everyday essentials, giving you a sense of order that makes getting ready feel effortless.

5

lifted or grounded WALL MOUNTED FITTED FURNITURE

Swap the floorstanding look for a wall-mounted fitted furniture design to create a sleek, floating effect that frees up floor space and makes even the smallest bathrooms feel more open.

6

a perfect fit SLIM-DEPTH FITTED FURNITURE

Short on space? Our slim-depth fitted furniture offers the same sleek, integrated look with a reduced projection, ideal for narrow bathrooms or cloakrooms.

Spaces

- Our fitted furniture is designed to maximise limited space. Unlike freestanding units, fitted furniture is built to follow the dimensions of your bathroom, including corners and alcoves.
- Whether you're working with an ensuite or cloakroom, creating an open, ordered, and stylish bathroom is all in the details.
- Integrated storage keeps toiletries, cleaning supplies, and other items neatly hidden, reducing clutter and creating a clean look. Everything has its place, making it easier to access what you need without rummaging through piles of items.

Spotlight on our INFLUENCERS

Ceramics

apex

Define your style with this muted tone of Burford coniston blue to create a visual statement, balancing modern and traditional styling.

Complete this classic style with a double basin. Ideal for those wishing to make a real design statement and very practical as well. Opt for the Harrow sanitaryware, Keswick taps and Westport door handles to complete this look and create a beautiful balance between classic styling & dramatic good looks.

Alternatively coniston blue works equally as well with the more contemporary basins and WCs for a more timeless look.

For a seamless design include an oval furniture flush button from page 104.

TAILOR YOUR LOOK

Create a distinctive look with the traditional styling of the Harrow sanitaryware range, Keswick tap and Westport chrome handles.

Adding the finishing touches

WORKTOP OPTIONS

Furniture, Taps,
Mirrors & Cabinets

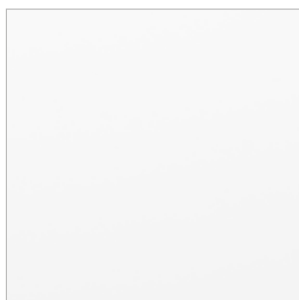

The choice is yours with our diverse collection of worktop finishes, materials & styles.

Strata worktops are completely solid and can be cut to whatever size or shape your bathroom demands, with no need to bond on finishing strips. Simply cut to the desired profile and sand down the end to a fine finish. Clear adhesive is also available for joining longer runs or corner installations.

As with any solid surface product, darker finishes will show some scratches over time, however these can be very easily sanded and polished out to keep your worktop in pristine condition.

BASINS WITH INTEGRATED WORKTOPS

Ceramics

Expertly moulded into a single piece, our basins with integrated worktops strike the perfect balance between form & function. Choose from the City basin or opt for the semi-recessed Motif basin style for a clean, minimalist look.

CITY BASIN

The natural beauty of the solid surface worktop flows effortlessly into the deep, spacious wash basin.

Provided in 1640mm length, the worktop can be cut down to size to suit your installation and finished so that exposed ends can be visible. To be used with standard depth 600mm semi-countertop, with a maximum furniture run of 1620mm including end panels. It works equally well with both classic and contemporary bathroom designs.

See page 157 for further details.

Ceramics

MOTIF BASIN

The Motif basin is available in 1640mm length and the worktop can be cut down to size to suit your installation and finished so that exposed ends can be visible. Available in standard or slim depths and left or right handed versions.

Motif is to be used with 600mm semi-countertop units only, with a maximum furniture run of 1620mm including end panels. It works equally well with both classic and contemporary bathroom designs.

See page 157 for further details.

COUNTERTOP BASINS

Ceramics

Create a hotel look in your home by upgrading to one of our countertop basin options.

When placed on a worktop, these oval or rectangular basins provide a clean uncluttered finish. A distinctive and attractive alternative to conventional bathroom basin.

Why not define the overall style of your fitted furniture unit further by choosing an aspirational solid surface natural stone-like worktop, alternatively choose a laminate worktop from our range of go to laminate finishes. See pages 91 and 154 for more details.

INLINE ISOCAST BASINS

Why not try our club inline basin for a sleek and minimal look?

Designed to work with our standard depth Elan, Burford & Aruba 600mm basin units, the club inline basin sits into your fitted furniture unit. Able to be used between two other units or positioned up to a wall on one side, giving you a low-profile and effortless finish. Club inline allows you to make the most of your worktop space, whilst still offering a practical and deep wash basin. Simply pair with your desired standard depth laminate or solid surface worktop finish, details available on pages 90 and 91.

DON'T
FORGET

Inline basins are designed to work best in the following configurations:

- Positioned between two other fitted units, as the 605mm width basin will overhang a 600mm Semi-Countertop Basin Unit by 2.5mm on either side.
- Positioned up to a wall on one side, where an end panel is not required.

Flushing Solutions

PREMIUM STAINLESS STEEL FLUSH PLATES

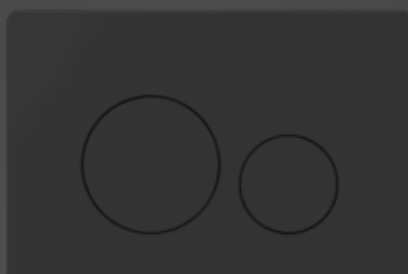

Our brand new premium flushplate sets a new standard in both design and functionality, featuring a high-quality stainless steel front plate that offers a more luxurious feel. Its ultra-slim 4mm profile allows it to sit almost flush against the wall, creating a sleek, modern aesthetic. Available in a wide range of finishes, brushed finishes are treated with a durable PVD coating to ensure a long lasting resistance to wear.

FLUSHING SOLUTIONS

CLOSE COUPLED SENSOR FLUSH KITS

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid.

The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 2" base.

When upgrading an installed Roper Rhodes cistern the following ranges will require the following items to operate correctly:

- **Aruba and Elka**
Flush button kit TR9032
- **Faber**
Flush button kit TR9031

SEAT HINGE CAP UPGRADES

WC FLOOR FIXING CAPS UPGRADE

Upgrade to black, brushed brass, gunmetal or brushed bronze seat hinge cover caps for the following ranges.

Paradigm Seat (PASCTS) Faber Slim Seat (DC14078)

Matt Black	DC4011	£22.10
Brushed Brass	DC4012	£38.10
Gunmetal	DC4028	£38.10
Brushed Bronze	DC4045	£38.10

Widcombe Thermoset Seat (WSCTS-SF) Elka Slim Seat (ELSLCTS-SF)

Matt Black	DC4019	£21.10
Brushed Brass	DC4020	£36.30
Gunmetal	DC4030	£38.10
Brushed Bronze	DC4047	£36.30

Hampton Seat (HAMSCTS-SF) Aruba Seats (ARSCTS-SF, ARSLCTS-SF, ARSCTS2-SF) Faber Wrap Over Seat (DC14077-SF) Elka Wrapover Seat (ELSCTS-SF)

Matt Black	DC4032	£21.10
Brushed Brass	DC4033	£36.30
Gunmetal	DC4034	£38.10
Brushed Bronze	DC4046	£36.30

OVERFLOW CAPS UPGRADE FOR BASINS

Matt Black	OVMCBK	£12.10
Brushed Brass	OVMCA	£12.10
Brushed Nickel	OVMCBN	£12.10
Brushed Bronze	OVMCBZ	£12.10
Gunmetal	OVMCGM	£12.10

FLUSH BUTTON UPGRADE FOR CISTERNS

Upgrade your close coupled cistern flush buttons.

Use the ø48mm button for the following ranges:

- Hampton close coupled cistern p101
- Elka close coupled cistern p100
- Aruba close coupled cistern p100
- Paradigm close coupled cistern p101

ø48mm flush button cistern upgrade

Matt Black	TR9027	£22.10	Brushed Nickel	TR9056	£27.70
Brushed Brass	TR9039	£27.70	Brushed Bronze	TR9052	£27.70
Gunmetal	TR9048	£27.70			

Use the ø38mm button and flush valve TR9033 (opposite) for the following ranges:

- Faber close coupled cistern p100

ø38mm flush button cistern upgrade

Matt Black	TR9026	£22.10	Brushed Nickel	TR9055	£27.70
Brushed Brass	TR9038	£27.70	Brushed Bronze	TR9051	£27.70
Gunmetal	TR9047	£27.70			

Adding the finishing touches

TAP COLLECTION

PVD hardwearing
& scratch resistant
coating on brushed
finishes

10
YEAR
GUARANTEE
including tap
cartridge

Designed to deliver the finishing touch to your bathroom, our basin mixers are not only beautiful to look at but superbly well engineered for durability too.

From ultra contemporary to more timeless designs, there is something to suit everyone. Most taps also have a coordinating bath filler. **Please refer to the main Roper Rhodes Bathroom Book for more information.**

All Roper Rhodes taps use the latest highly reliable ceramic cartridge and ceramic disc technology. Our brushed brass taps include a hardwearing and scratch resistant PVD coating. As testament to this in-built quality, all of our taps are provided with a ten year guarantee.

LIGHTING, MIRRORS & CABINETS BROCHURE

Explore the full Roper Rhodes Lighting Mirrors & Cabinets collection with our dedicated brochure. Ask your local retailer for a copy or visit our website to order or download one roperrhodes.co.uk/brochures/

CONNECTED BY WIZ

Our connected by WIZ smart mirrors are completely customisable - allowing you to set, schedule and adjust your lighting scheme with ease.

CHARGING SOLUTIONS

Discover true convenience with our range of charging enabled mirrors. Sleekly designed hidden sockets are perfect for toothbrushes or razors. Our Leap Pro mirror is available with both shaver and USB sockets.

 **Infrared Sensor:** The position of infrared sensors is indicated on each frame with this symbol

Important: When mounting cabinets with infrared sensors, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the sensor can function properly.

CHARGING STATION

Add further functionality to your new Roper Rhodes fitted furniture by adding our charging station. The subtle little unit can be installed into our floor cupboards or wall cabinets and includes both a two-pin charging socket and a USB port to keep all your electricals fully charged.

- Designed for use within fitted furniture cupboards and wall cabinets
- Includes a two-pin charging point with rocker switch
- Includes a USB charging socket
- Supplied in a modern matt black finish
- Designed with cover to hide sockets when not in use
- Screwless mounting
- Requires a mains connection (supplied with one metre flying lead)
- Not recommended for installations in semi-countertop units or drawers
- IP44

	Code	RRP
Charging Station	DC6001	£172.50

SAFETY ZONES & ELECTRICAL INFORMATION

ZONES FOR EQUIPMENT IN CLOSE PROXIMITY TO BATHS & SHOWERS

Roper Rhodes illuminated mirror and aluminum cabinets have been independently tested for compliance with electrical equipment safety regulations. Products shown with IP44 or IP55 ratings and are suitable for use in zone 2 and outside zones in the bathroom

ZONE 1 Electrical fittings in this zone require a separated extra low voltage and a minimum rating of IP65 (splash-proof)

ZONE 2 Electrical fittings in this zone require a minimum rating of IP44 (spalsh-proof)

OUTSIDE ZONES Electrical fittings in this zone require a minimum rating of IP20

TECHNICAL INFORMATION

Plan your bathroom ...

YOUR PLANNING & ORDERING GUIDE

Now that you have explored the furniture ranges on offer, let us take you through a step by step guide of how to design and create your new fitted furniture bathroom.

SELECT YOUR LOOK

ELAN

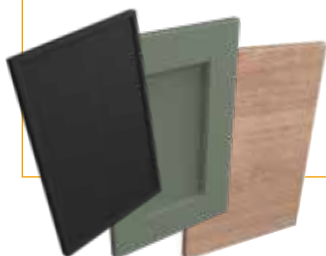

BURFORD

ARUBA

The most important choice when determining the look of your bathroom is door style and finish.

We have three furniture styles to choose from; from the elegant looking Elan, the timeless looking Burford or the pared-back modern style of Aruba.

We also offer a free colour swatch service. See page 161 for details.

SLIM DEPTH

STANDARD DEPTH

CHOOSE YOUR DEPTH OF UNIT

Assess the available space in your bathroom and choose from either standard depth (353mm) or space-saving slim depth (218mm) units. Consider which combination of units work for the space of your bathroom.

HANDLE OPTIONS

Add the perfect finishing touch to your doors with one of our range of handles. Choose from chrome, brass, matt black, antique bronze, brushed bronze or brushed nickel or colour matched options. See pages 88-89 for our full range.

CHOOSE YOUR WORKTOP

LAMINATE

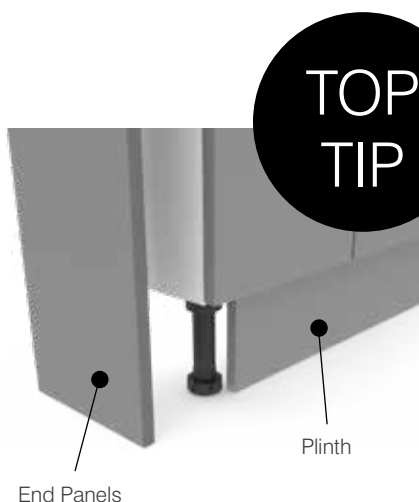

INTEGRATED BASIN
& WORKTOP

SOLID SURFACE

Select a worktop from either our Strata solid surface or laminate options. Alternatively opt for either the solid surface City underslung basin or Motif semi-recessed basin. Both have an integrated worktop for a seamless look which works equally well with both contemporary and classic bathroom designs. See pages 152-155 for further details.

End Panels

Plinth

TOP
TIP

THE PERFECT FIT

Whether you prefer wall-hung or floor-mounted cabinetry, our fitted furniture adapts to your style. Conceal leg supports by choosing colour matched plinths for floorstanding units and create a seamless, framed look with end panels or design panels.

Tip: Save on materials and costs - when using end panels between units - by cutting panels in half.

Finally, choose your bath panel to keep everything coordinated. See page 151.

BASIN & WCs

Choose your preferred basin and WC to match the styling of your bathroom, in addition to a cistern and frame (if required). Complete the look by selecting from our range of flush plate options on page 94-107.

TAPS

Top your basin with our expert-engineered and stylish basin mixers. See pages 108-109 for our full range of options.

MIRRORS, CABINETS & LIGHTING

Choose your preferred mirror or cabinet from pages 110-131.

500 & 600MM BACK TO WALL WC UNITS

500 & 600MM STANDARD / SLIM DEPTH BACK TO WALL WC WITH FASCIA DOOR PACK

FEATURES

- Fascia to be cut on site to suit sanitaryware.
- Main panel goes to floor.
- Front access top fascia.
- For compatible back to wall WCs see page 98.

* These fascia packs are designed to be used with comfort height WC pans & cisterns, so exclude the Burford moulding.

**END
PANELS
REQUIRED**

Exposed carcass sides are covered by using colour matched end panels which will be required to complete your fitted furniture run. See pages 146-149 for panel options.

Please note: End panels will need to be cut to height to fit wall mounted cupboards

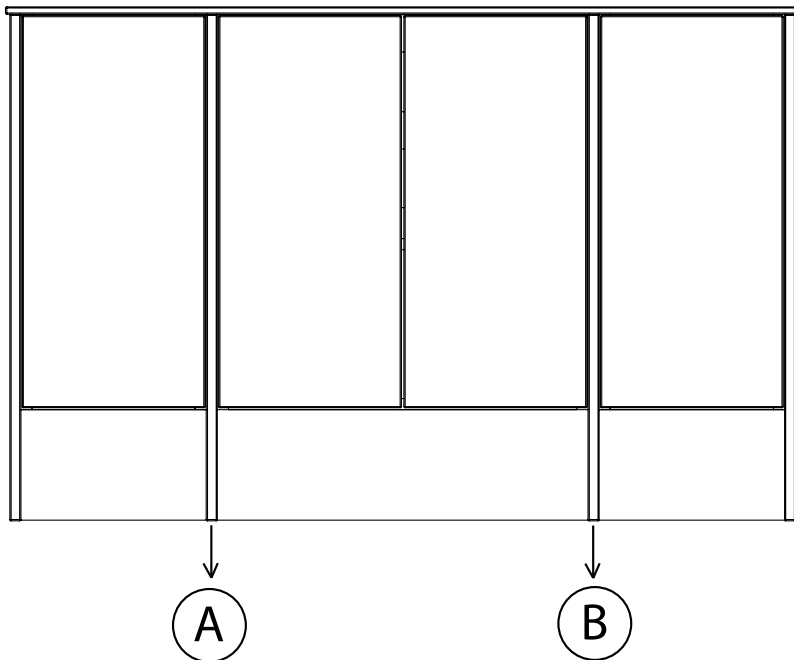

FILLER PANELS, DESIGN, CLAD-ON END PANELS & PLINTHS

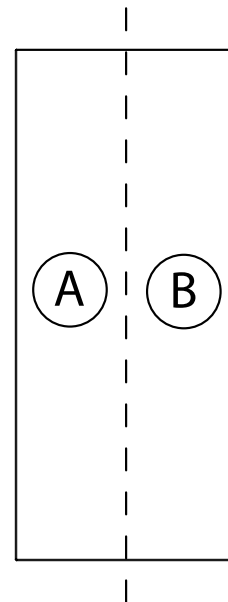

All of our fitted furniture ranges can be wall hung or floor mounted, depending on your desired look. If you opt for floorstanding units, you will need to order colour matched plinths in order to hide the leg supports.

For all fitted furniture you will need to order end panels to complete your look, unless your furniture runs wall to wall. If using end panels in between units to create a framed look, please be aware that one end panel can be cut in half to save costs.

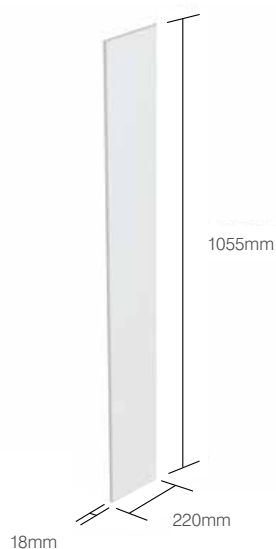

When creating a 'framed' look, cutting 1 x standard depth end panel in half saves on material and on overall cost. These 2 half depths (A & B) can be installed between units.

Standard Depth End Panel

COUNTERTOP SIT ON UNIT - SLIM DEPTH END PANELS

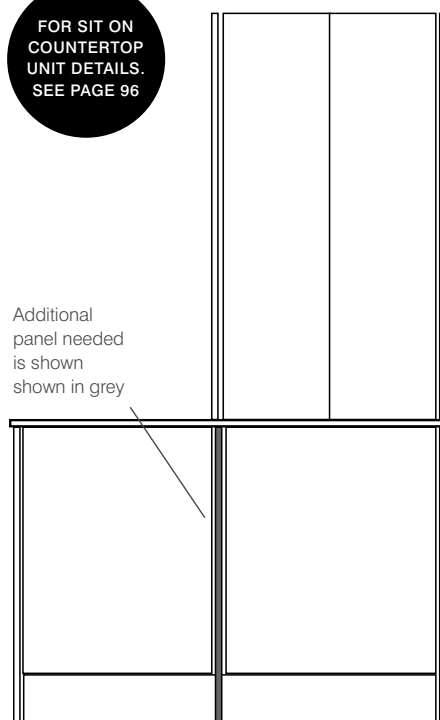

FEATURES

- Panels required to finish both sides of the countertop sit on unit
- Slim depth panels only to match countertop sit on unit
- If used above a run of furniture - panels must be used between base units to achieve lineup of panels – see diagram below

* Burford end panels have feature tongue & groove effect.

30MM DESIGN / CLAD-ON END DESIGN PANELS

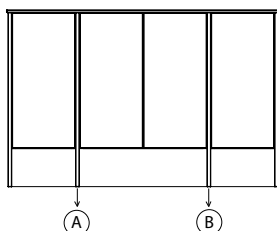

STANDARD / SLIM DEPTH DESIGN CLAD-ON DESIGN PANELS

FEATURES

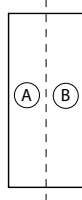

- Clad on to units to create striking effects.
- Allows creation of a framed inset door look.
- Use with standard and slim depth base units.
- Cut down for wall-hung base unit installations
- When more than one filler panel between units we recommend cutting in half for cost efficiency.

* Burford end panels have feature tongue & groove effect.

When creating a 'framed' look, cutting 1 x standard depth end panel in half saves on material and on overall cost. These 2 half depth panels (A & B) can be installed between units.

BASINS WITH INTEGRATED WORKTOPS

Expertly moulded into a single piece, our basins with integrated worktops strike the perfect balance between form & function.

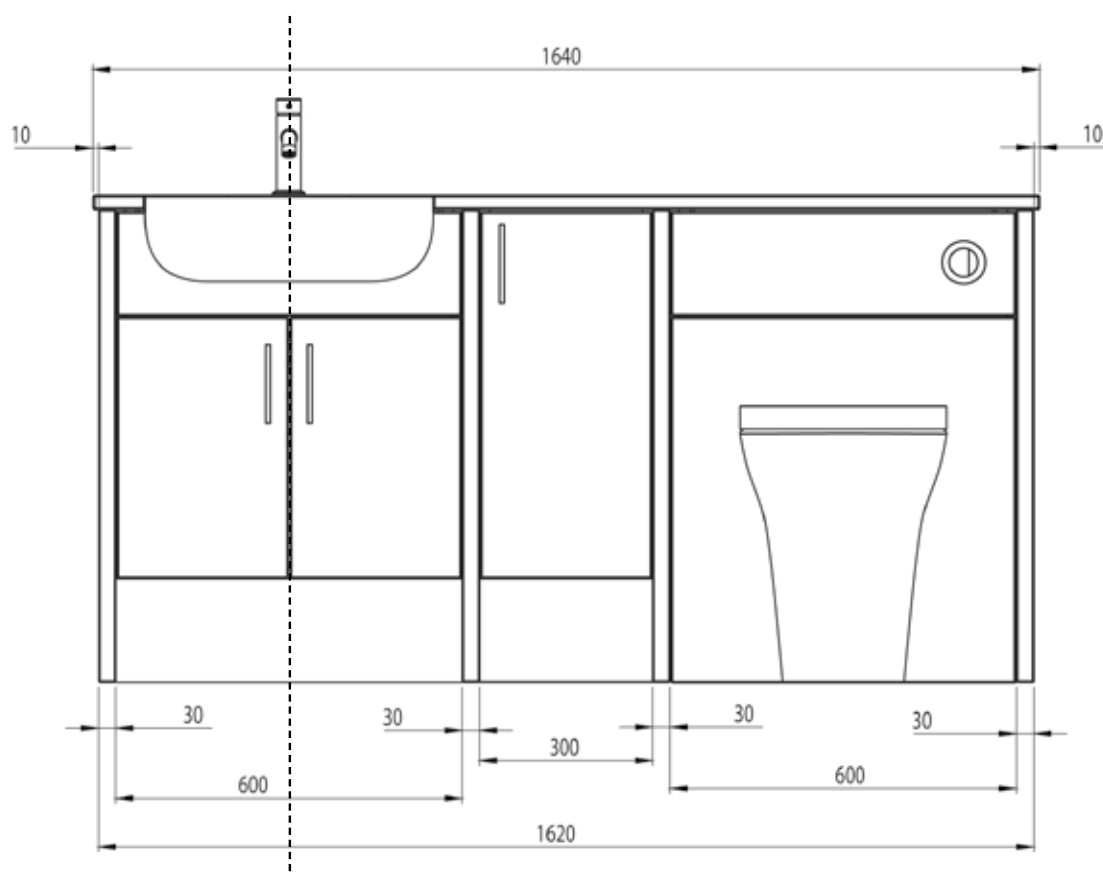

City Basin

Standard Depth Motif Basin

Slim Depth Motif Basin

BASINS WITH INTEGRATED WORKTOPS

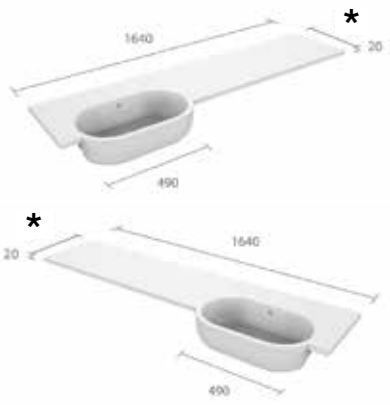

Motif and City basins feature integrated worktops that are 1640mm in length and designed to fit on a maximum furniture width of 1620mm, including end panels. This allows 10mm overhang at each end. It is also critical that the basin bowl is positioned centrally on the semi-countertop furniture unit.

Please check carefully that your furniture selection will fit.

PLANNING TIPS AND ADVICE

LOCATING THE PRINCIPLE ITEMS

Wherever possible, try and install your WC, basin, bath and/or shower in a similar position to that in your current bathroom in order to minimise installation time and costs.

PLANNING - KEY STEPS

- Measure your bathroom and draw out a plan, to scale if possible.
- Make reference to where all services are located including soil pipes and water inlets.
- Ensure all dimensions of heights/widths of windows and radiator positions are marked up on your plan.
- Take note of the direction the door opens as this could affect your layout. If it is a hindrance, your door could easily be re-hung by a professional to allow more flexibility.

Once you have the outline of your bathroom, you can experiment by placing different units within your plan. See pages 16-17 for full details of the different sized units available. If you have an odd space at one end of a run of furniture, for example if fitting between two walls or a wall and a bath, then filler panels can be used. The worktop can run across the top of the furniture between the two walls to create a continuous look. Our storage shelf units are supplied in a flat pack format, allowing your installer to cut down the width of the shelves and base components from the nominal 300mm width so that the unit can be customised to suit any size.

When you are happy with your initial design layout, take it to your Roper Rhodes stockist. Your retailer may come up with some further design ideas which may help inspire you.

CORNERS

If due to the size of your room there is an odd space, then two pieces of filler panel can be used to space the units as necessary.

Worktops can be fitted together on top of your corner configuration using a mason's mitre jig and worktop jointing bolts. Your bathroom fitter will be able to advise further.

WC UNITS

The use of a WC unit and concealed cistern can create a clean uncluttered look for your bathroom. Dual flush concealed cisterns available from us operate by a pneumatic push button which can be sited in the front removable fascia of the WC unit, or on the top of the unit if desired.* Our WC units feature a panel which goes to the floor, removing the need for unsightly filler blocks that are sometimes used to fill the void between the back to wall WC pan and the plinth. As a consequence, it is recommended that when fitting commences, the WC unit height is set first with the other units running off. If the floor of the installation is uneven, then the main fascia panel can be scribed to fit.

If a wall hung WC pan is required, then a suitable supporting frame must be used see page 102. Never fit a wall hung pan directly to the fascia of a WC unit only. Speak to your retailer for more details on compatibility.

BASINS

Our semi-countertop basins are available in both slim and standard depth formats and can be mounted on both laminate and solid surface worktops by an experienced fitter.

SLIM DEPTH FURNITURE

The key units within our Fitted Furniture range are available in both standard and slimline formats. Using slimline furniture in small ensuites or cloakrooms can help maintain vital space in the room without sacrificing bathroom storage.

* Only with standard depth WC units. Flush buttons can only be installed on the front fascia of slimline units.

PLANNING TIPS AND ADVICE

CONCEALING PIPEWORK

One of the benefits of using our Fitted Furniture is that unsightly pipework can run along skirting boards and walls whilst being concealed behind the units. The furniture is designed with a plinth height of 180mm, which means that even soil pipes can run under the units.

All standard depth base units feature a generous 50mm void at the back, which allows waste pipes and copper pipes to run along the walls whilst being concealed behind the units. Your fitter will only have to notch out the side panel of the unit where the pipe traverses. In addition to the 50mm pipe void, basin units in both slim and standard depth configurations feature a removable back panel to aid the installation process. (See diagrams below).

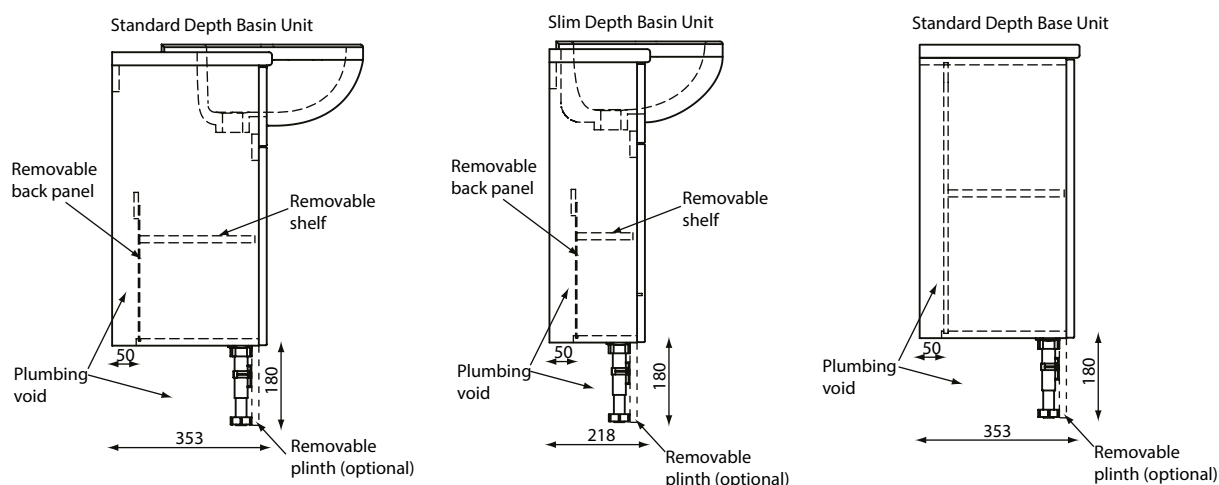

ELECTRICS & CHARGER POINT DETAILS

When planning your bathroom, note where any lighting or electrical supply cables are situated. It may be necessary to move these. It is advised that this work is done after the old bathroom fittings are removed but before the new installation begins. Always use a qualified electrician for any work carried out in a bathroom. Your retailer may be able to advise when to schedule an electrician, or consult your fitter or electrician for more advice. Please note that Roper Rhodes cannot give specific advice on electrical installations.

When planning where to locate lighting, it is vital that the IP rating of the device is taken into account as this will affect which zone of the bathroom the fitting can be located in. Your electrician will be able to advise further on bathroom zones and which electrical appliances can be sited where. Remember to allow for the provision of switching for any new lighting.

It is recommended that, whilst you are at the planning stage, you make an allowance for the installation of a suitable extractor fan to remove excess water from the atmosphere. After the furniture has been fitted, plan for an electrician to come back and install light fittings or electrical devices which are used.

PLUMBING VOIDS

PLANNING TIPS AND ADVICE

FILLER PANELS

Filler panels are available to fill gaps at the ends of runs of furniture and to clad ends of furniture for a perfect match.

CLAD-ON DESIGN END PANELS

Clad-on design end panels are available in slim and standard depth configurations and are 18mm or 30mm thick (depending on the finish, see pages 146-149 for further information). Give a different style to your bathroom design by cladding these to the sides of units for a framed look. Design panels are 820mm tall, allowing them to run from the floor to the underside of the worktop if necessary. They can be cut down if base units are wall hung. The slim design panels can also be cut down to be used with wall cabinets or wall cupboards.

You can achieve very different effects by contrasting the panels and fascias of units. Matching colours between doors and accent panels creates a subtle yet 'solid framed' look.

HANDLES

The comprehensive range of handles in our range allows a multitude of looks to be created. Move them into different positions on the door, or change their orientation, to create the look you want on your furniture.

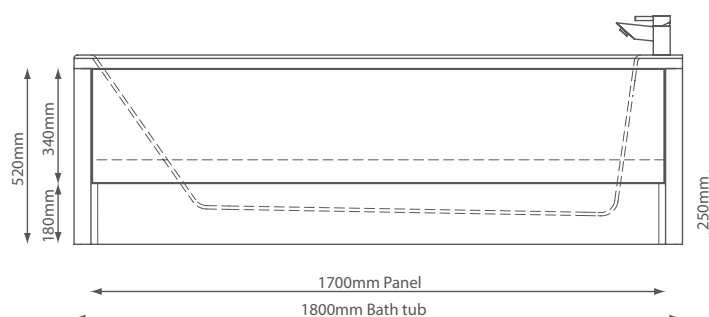

Please note that all doors will require your fitter to drill and fit your handles so that you can position them exactly where you want.

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina and the lighting they are compared in. Imagery shown in this brochure are representative only.

BATH PANELS

Designed to complement all door styles. Both front and end panels are supplied with a matching plinth which allows for adjustment depending on site conditions. To achieve a continuous look between the furniture and the bath panel, it is recommended that the panel is set at a height of 520mm, so that a plinth height of 180mm is achieved.

Note: Once installed all bath panels must be sealed along the top, bottom and sides with a suitable silicone sealant to prevent damage from excessive moisture.

Keeping in touch

CUSTOMER SERVICE & AFTERCARE

As one of the UK's largest suppliers of bathroom furniture & accessories, we set very high standards in design, manufacture & service. We also invest heavily in product improvement & innovation. By choosing Roper Rhodes, you can be confident that your product is of excellent quality.

OUR BROCHURES

Explore the rest of the Roper Rhodes collection with our core Bathroom Book and dedicated Lighting, Mirrors & Cabinets brochures. Ask your local retailer for a copy or visit our website to order or download one.

HOW TO CONTACT US

If you need to contact us, our experienced in-house customer service team has a wealth of knowledge about our products.

01225 303900

sales@roperrhodes.co.uk

Monday to Thursday - 8:00am - 5:30pm

Friday - 8:00am - 5:00pm

DELIVER

We will make every effort to supply all products ordered in as short a lead time as possible. Our standard delivery is three days. Should you require next day delivery this can be arranged. Our Fitted Furniture must be installed by a qualified fitter. In the unlikely event that your product is damaged or faulty in any way, this must be notified on receipt, and must not under any circumstances be fitted. Time must be allowed between delivery and installation for checking items and the delivery of subsequent replacements. Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so. We shall not be liable for any further unfitting/refitting costs or financial compensation. Components/products that are deemed defective as a result of incorrect or substandard installation or improper or negligent use will be excluded from any guarantee claim. Roper Rhodes Ltd reserve the right to amend specifications at any time if an opportunity to further improve the product occurs.

Doors and fascias are supplied separately to the furniture units, to prevent them from being damaged during the installation process. Doors are simply fixed by your fitter screwing the necessary hardware to the backs of the doors or fascias and simply clicking into place on the relevant hinge plate inside the unit. All units are supplied assembled with the exception of the storage shelf units (which can be modified if necessary to fit a smaller gap).

INSTALLATION

Roper Rhodes furniture is designed for use within domestic installations which are adequately ventilated and is not suitable for installation in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

PRODUCT SPECIFICATION

The furniture colours shown in this brochure are representative only and can be affected by a multitude of factors such as lighting and surrounding items. If you are unsure we would recommend obtaining a swatch.

All timber finishes featured within this brochure are timber effect. Please note that there may be some slight variation between carcasses, doors and worktops due to different manufacturing techniques used.

All dimensions are approximate, especially with ceramic sanitaryware where a tolerance of +/- 2% must be allowed.

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina and the lighting they are compared in. Imagery shown in this brochure are representative only.
